Done

- Write **three** patents.

Patents

- It's very important for lawyers to know our work.
- Make pictures clear and big.
- One problem we solve is a patent.
- There are many methods can be chosen in some models, we should explain why we use the method instead of others.
- We should use subjective words and illustrate results and problems. (不要说“进行分析”等主观的词，要说看到了什么，具体的词，明确一点。)
- When a patent have been wrote, it can solve a problem by steps of the patent.

To Do

- Read papers for writing the summarization.
